November 22, 2020

Dear Parents/Guardians,

I was informed this afternoon (Sunday) from CiTi BOCES that a CiTi BOCES staff member at the lower level of Central Square Middle School tested positive for COVID-19. Through the Oswego County Health Department's contact tracing, it was determined that **no** Central Square students or staff members outside of the lower level BOCES program at Central Square Middle School are considered "close contacts" that would require a quarantine. CiTi BOCES is in the process of contacting all of the students and staff in that BOCES program housed in the lower level of Central Square Middle School that will be required to quarantine. The Health Department will also be calling those students and staff in that BOCES program to give them the details regarding their quarantine. Again, **no** staff member or student outside of that BOCES program is considered a "close contact" and are not required to be quarantined. Central Square Middle School will be operating normally tomorrow (Monday) with in-person learning for students that receive in person learning. CiTi BOCES will be contacting the parents of the students in the BOCES program at Central Square Middle School with further details.

Sincerely,

Thomas J. Colabufo
Superintendent
